REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claim 1 includes the limitation that the magnitude of the width at the widest point is at most $(-8.889 \times 10^{-5} * E + 0.05378) * L - 5.25$. Claim 2 states that the ratio of magnitude of the width at the widest point to the total length is at most $(-8.889 \times 10^{-5} * E + 0.05378) - 5.25/L$. Claim 3 states that thickness at the thickest point is at most $0.0007 * L - 0.0027407 * E + 1.37814$. Claim 4 states that the ratio of the magnitude of the thickness at the thickest point to the total length is at most $0.0007 - (0.0027407 * E + 1.37814)/L$. Claim 15 states that the widest point is at most $(-8.889 \times 10^{-5} * E + 0.05378) * L - 5.25$ and the thickest point is at most $0.0007 * L - 0.0027407 * E + 1.37814$. Swanepoel (EP 0528643) fails to teach a wiper blade that has a thickness and a width that meets these equation limitations, nor would it have been obvious to modify the invention to meet the claim limitations. Therefore, the application is free from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
